FOREWORD

The Attorney General Law, 2001 has assigned the Office of the Attorney General responsibility to carry out compiling and publishing of law books, law manuals and periodicals in accordance with stipulations. The Attorney General has published Myanmar Laws in Myanmar language since 1988 to date and "Myanmar Laws" series in English annually under The Attorney General Law of 2001. OAG has published various issues of Law Journal, Law Dictionary and rare Myanmar law books which are already out of print.

OAG believes that the issuing of Myanmar Law series partly fulfilled the requirement of legal field and it is intended to help legal practitioners, scholars and law students inside and outside of the Myanmar so as to understand Myanmar laws in English. Myanmar participation in international and regional activities has been increasing, so Myanmar Laws in English would be useful for the various officials of Government and non-Government organizations to understand, so as to use of their legal knowledge in international and regional fora.

In the year 2008, eight laws were enacted in Myanmar, among which, the Referendum Law for the Approval of the Draft Constitution of the Republic of the Union of Myanmar is very important in building the modern, prosperous and developed Country.

English translation of Myanmar law is made by the Office of the Attorney General. There may be divergences and ambiguities between Myanmar and English versions, in such case the Myanmar text shall prevail.

The Office of the Attorney General believes that the Myanmar Law series will give better understanding of Myanmar laws to all readers.

Union of Myanmar
The State Peace and Development Council
(Announcement No 2/2008)
The 3rd Wxing of Tabodwe, 1369 M.E.
(9th February 2008)

1. The Tatmadaw Government had to unavoidably take over State responsibilities due to the unrest and disturbances in 1988.
2. Since then, it restored community peace and tranquillity as well as the rule of law while enabling the people to earn livelihood freely and peacefully.
3. For development of agricultural sector in view of bringing about economic development of the nation and the people, clusters of dams and reservoirs were built; river water pumping projects and underground water tapping projects were implemented; all-round efforts were made to ensure food sufficiency for the entire people; and conventional farming is being transformed into mechanized farming.
4. Moreover, the State has established heavy industries and encouraged private-owned industries by setting up industrial zones in order to transform the agricultural country into an industrialized one.
5. To bring about market-oriented economic system as aspired by the people, efforts have been made hand in hand with the people for development of internal and external trade.

6. Border areas and national races development projects were implemented for ensuring region-wise development in the country while infrastructures were built for better transportation to overcome natural barriers in order that national people will make closer contacts in amity.

7. To narrow down the gap in human resource development as much as possible in the nation 24 special development regions were designated and universities, institutions and schools were opened. Similarly, to uplift health and fitness of the entire people, specialsit hospital, hospitals and rural hospitals were constrected and upgraded.

8. Although such endeavours to build up good foundations for the nation and the national people have not completed yet, required basic foundations have already been constructed.

9. As such necessary good foundations have been established, it is most appropriate to transform the administration of Tatmadaw into democratic administration of the people. Thus, in accordance with the forthcoming State Constitution, the multi-part democracy general elections will be held in 2010.
